

SMART TECHNOLOGY FOR SMARTER MANUFACTURING

Artificial Intelligence | Automation | Big Data | Extended Reality
IoT | Machine Learning | Predictive Analytics | Sensors

CALL FOR DEMOS

Do you have some smart tech to show off? A buzz-worthy innovation ready to take the manufacturing world by storm?

Eight companies will be selected to present a **30-minute demo** at the upcoming **April 29 Smart Technology for Smarter Manufacturing** workshop. To be considered, please submit a brief, one-page executive summary, including the below requirements.

- 1 Describe your technology. Must qualify in one of the 8 focus areas above.** Make your description thorough, but easy to understand. What makes your tech unique, smart and innovative?
- 2 Explain the value proposition.** Detail your technology's value and how it solves problems in a manufacturing environment. What solution does it provide?
- 3 Prove your technology's readiness.** Is your technology ready for implementation or already at work in a facility? Provide visual evidence and examples.
- 4 Provide a contact.** Share your company name, web address and a main point of contact with phone number and email address.

DEADLINE > MARCH 27

Submit your executive summary to Lynsey Delane at lynsey.aama@gmail.com.
